

gts

Expedite

Freight Services

GTS Expedite is the one-stop solution for critical shipments being moved throughout the United States. Our transportation team specializes in quoting, scheduling, and tracking time-critical shipments that do not match the schedule, weight, and size restrictions of your common LTL carrier. With one call to GTS, we will analyze a client's specific shipping requirements and identify the applicable services that will meet their needs.

Call GTS for expedited freight services when shipments:

- Have same day delivery requirements;
- Are time sensitive or time definite;
- Require transit times faster than standard LTL service;
- Require dedicated service (no transferring of the product);
- Require air service (ground transit time can not get shipment delivered in time); or,
- Require high levels of security (i.e., delivery to the Library of Congress).

Service Features:

- Same day delivery, air charter, expedited ground freight, and specialized services
- Guaranteed time- and day-specific service options
- Direct service to and from all points in the United States
- Competitive rates
- One toll-free call, 24 hours a day
- Nationwide network of delivery partners, including specialized equipment
- Dedicated transportation specialists monitoring your shipment from pickup to delivery
- One consolidated weekly invoice
